MISSING PUPIL PROCEDURE

The procedure shown on the accompanying flow chart must be used where there is an unexplained absence of a pupil at school:

- pupil does not attend callovers, lessons, activities or mealtimes as expected
- pupil is unaccounted for at bedtime or
- when the pupil's friends or classmates are unexpectedly unable to locate the pupil

The Head will decide if the parents are to be informed at an earlier stage than shown on the flow chart.

Pupils are registered at key points in the school day: callovers, lessons and activities.

Any pupil leaving site is expected to sign out in house.

Any pupil leaving the school site outside of the normal school routine (e.g for a pre-arranged external medical appointment), should ensure that their house team is aware in advance, as well as signing out in house. House teams would usually be made aware of an expected absence by email from parents or guardians.

If a pupil does not arrive back at school following a holiday, exeat weekend, or other authorised absence, the HSM or a designated member of the house team must contact parents/guardians as soon as feasible (but certainly within 30 minutes) after the callover in which that absence has been identified, to inform them that the pupil should be at school.

If a pupil is reported as missing, the staff member conducting the initial searches will depend on the time of day/night. An SLT member will usually take on this role.

School trips (UK-based or overseas):

If the pupil goes missing on a school trip, either in the UK or overseas, the trip leader will become responsible for coordinating the search. All trip risk assessments should detail procedures to be followed in the event of a pupil going missing, together with contact school mobile numbers for all staff accompanying the trip.

Recording:

In all cases involving a pupil going missing, a written record of the incident is to be made on the safeguarding systems MyConcern by the co-ordinator as soon as practicable.

Records relating to missing children will be reviewed by the DSL, Head and Governors any changes to identify any changes to policy, procedures, training or failures in implementation of the procedures.

Table 1:
